**MILLENNIUM HOTEL CHRISTCHURCH
SMOKE-FREE HOTEL POLICY**

Millennium Hotel Christchurch is committed to providing its guests and employees with a smoke-free environment.

As at the 1st January 2009, the entire hotel (including private accommodation rooms, public areas, restaurants and bars) will all be designated non-smoking.

Whilst the Hotel is not required to do so according to current legislation, the majority of our guests have reported that they favour a non-smoking environment throughout the Hotel.

Guests will be reminded of the smoke-free policy upon arrival at the hotel and in any pre-arrival correspondence. Included in this communication will be the necessary charges required to address the removal of the room and restore it to a smoke free condition resulting from a breach of this policy.

For the comfort of those guests who require them, smoking areas are provided outside of the building in the courtyard adjacent to the Millennium Lounge on the ground floor and outside immediately adjacent to both the main and the Restaurant entrances.

Millennium Hotel Christchurch is pleased that this policy will provide a greater level of comfort and satisfaction for its guests and employees.
